

**Powders:  
moisture  
protection  
solution**

# DRYCONNECT

PROCESS INNOVATIONS

Patent pending

The compact and hygienic solution to prevent moisture penetration

## APPLICATIONS

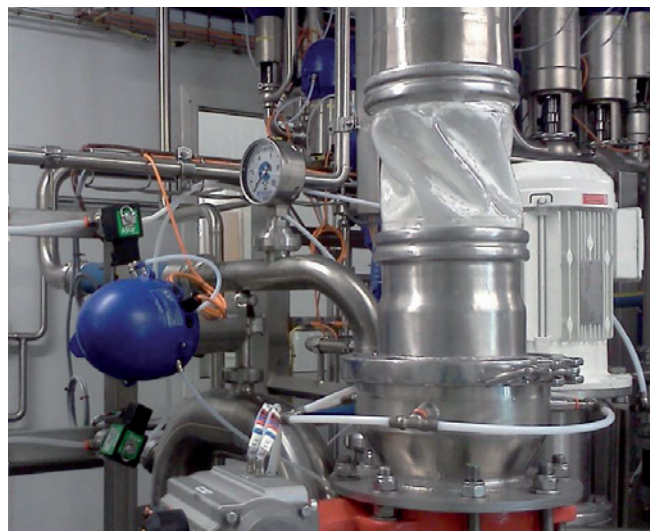

System to **eliminate the risk of humidity intake in feeding pipes:**

- of **powder** in powder tanks
- of powder and **dehydrated** in tanks for **soups/prepared meals**
- of powder in reactors for fine **chemicals, cosmetics** and **pharmaceutical**

## ADVANTAGES

Boccard  
commitment

- System without any moving part: **extended life expectancy** and **limited maintenance**
- **Quick** and **easy** disassembly and reassembly **without tool**
- **Hygienic** design: full access to internal parts
- Easy downflow of powders during their dosing

Process installation
